.

. and so much more !

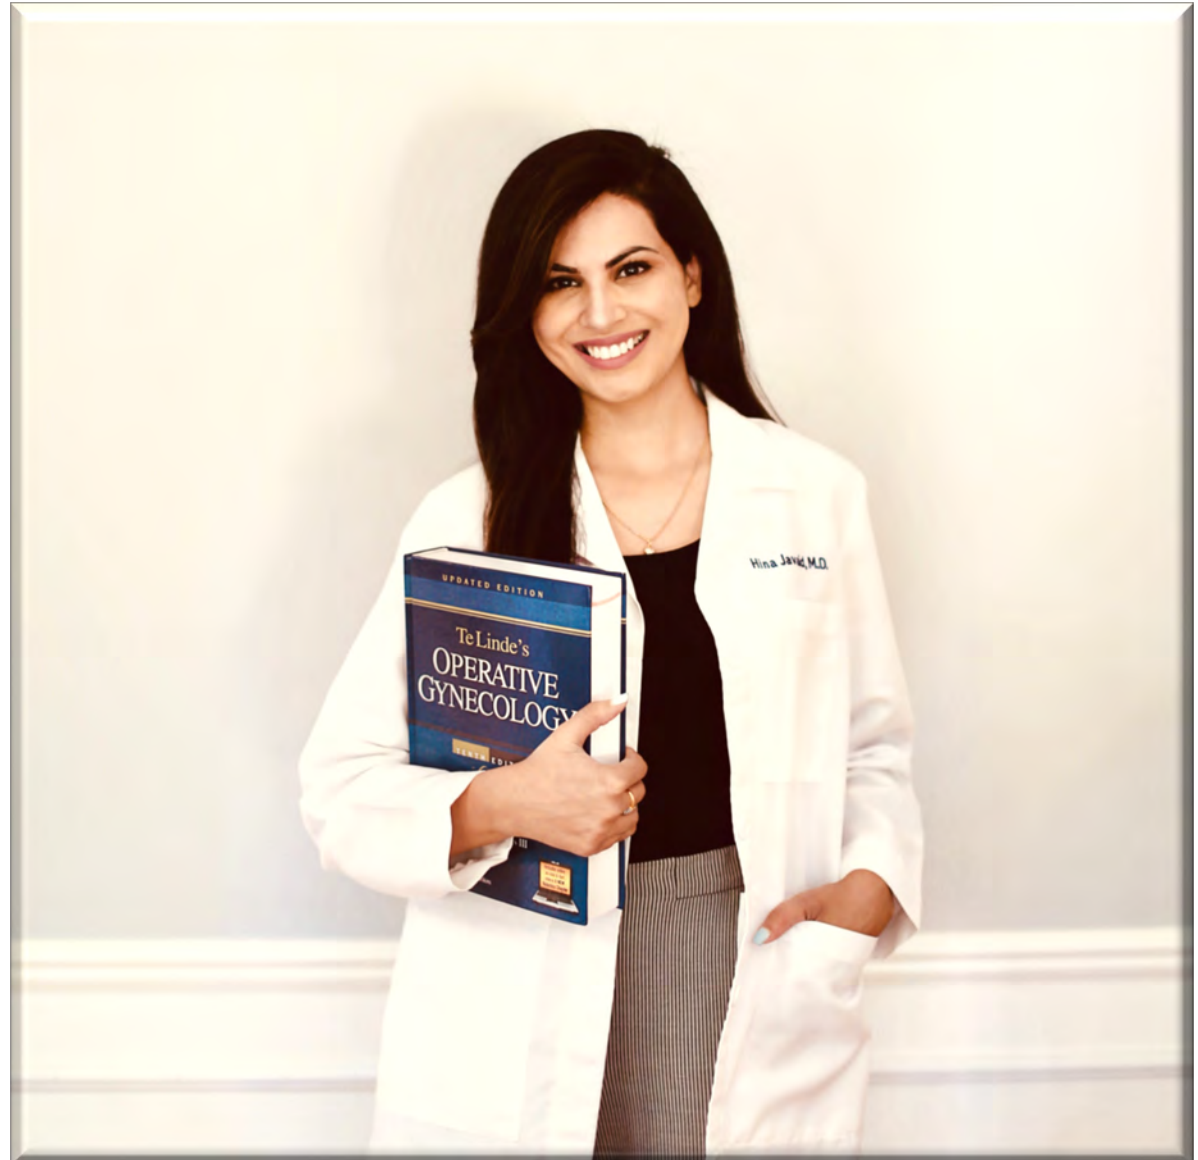

Dr. Hina Cheema is an OBGYN & Robotic Surgeon based out of Troy, MI. Hina completed her OB/GYN residency training at Hurley Medical Center, Michigan State University and is frequently mentioned as one of the most competitive surgeons among her peers.

Hina is obsessed with all things fashion, medicine, décor, travel, family, and philanthropy. Hina hopes to one day build a foundation similar to *Doctors without Borders* (where she actively participates) so she can continue to provide medical care, and perform surgeries for the under-privileged.

Blessed with a multi-cultural familiarity, Hina 's experiences reflect the trials, tribulations, and successes of life. Her unique exposure enables her to relate with her followers at a personal, yet sophisticated level.

Hina's training, observations, and struggles provide a reality-oriented perspective. She provides a story teller's intimacy with most of her content; to stir the imagination of the readers to look beyond, what the eyes can see. This stylish, personal, familiar, and simple approach is what sets her apart !
